ABOUT ME

UI/UX Designer specializing in creating intuitive and user entered web and mobile experiences. Skilled in Figma, wireframing, prototyping, and user research, with a strong understanding of user flows, visual hierarchy, and usability principles.

SKILLS

- **Tools** : Figma, Adobe Illustrator, Adobe XD , Notion
- **Research** : Usability, Testing
- **UX Skills** : Wireframing, Mock-up, Rapid prototyping, Responsive Design, Accessibility, Design System.
- **Visual Design**: Colour Theory, Typography.
- **Soft Skills** : Communication, Collaboration, Creativity.

WORK EXPERIENCE

UI/UX Design Intern | Ozibook Tech Pvt.Ltd

Fab 2026 – May 2026

- **Created client portfolio pages in Notion** to showcase design work and organize assets.
- **Replicated existing UI designs** to understand design patterns and visual hierarchy.
- **Designed homepage layouts for web projects** with a focus on usability and structure.
- **Collaborated with the team to review and refine UI designs** for better consistency.

UI/UX Design Intern | Akdenar Pvt.Ltd | Aug 2025 – Dec 2025

- Designed intuitive interfaces and seamless user flows for a **B2B** e-commerce platform.
- **Designed seller-side dashboard interfaces including the homepage**, focusing on usability and clear navigation.
- **Designed the Ads & Promotions section by analysing the seller journey**, creating simpler and more transparent web and mobile screens.
- **Worked on seller and admin dashboard features such as catalogue listing and catalogue requests**, supported with interactive prototypes.

PERSONAL PROJECTS

Work Pilot

Designed a mobile work-management app that helps employees organize tasks, track working hours, manage attendance, stay updated on meetings, and receive important work notifications in one place. The app was designed to reduce missed tasks and meetings while giving employees a clear overview of their daily work and progress.

Health Tracker

Designed a health monitoring app for elderly users with a focus on simple navigation and accessible design. Used larger text, clear visuals, and minimal interactions to create an intuitive experience that helps older adults manage their health more comfortably.

Candle website

Designed a minimalist e-commerce website reflecting the brand's calm and premium identity. Focused on clean layouts, smooth navigation, and a simple, intuitive shopping experience.

EDUCATION

- **B.com (hons)** | 2021-2024
Bharti College (**Delhi University**) 6.324 CGPA
